

Lab Safety Coordinators Meeting  
March 2, 2011  
Radiation Safety Training Courses

- Classroom sessions given by Radiation Safety Services (RSS)
- Introductory Radiation Safety Training
  - Wet Labs
  - X-ray generating equipment
  - Lasers

Lab Safety Coordinators Meeting  
March 2, 2011  
Radiation Safety Training Courses

- Sometimes, a PI requests that RSS train the entire lab staff, including those who don't use radioisotopes, x-ray equipment or lasers
- Online OWL training courses are only for PI's that want to give their staff a refresher course
- OWL training courses cannot be used for as a substitute or as a prerequisite for one-on-one introductory training given in the classroom for radiation use in wet labs or x-ray training

Lab Safety Coordinators Meeting  
March 2, 2011  
Radiation Safety Training Courses

- RSS will hold individual training courses on special devices that use or generate radiation.  
e.g.: Neutron generator in Physics Dept.
- RSS holds annual course for non-researchers
  - Custodial
  - Physical plant support personnel
  - Private contractors
